🌐 nishantthakurportfolio.netlify.app 📅 DOB: 04/02/1996

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 6.5 years of professional experience specializing in JavaScript, React, and Node.js. Proven expertise and strong proficiency in building robust web applications and focused on delivering secure, end-to-end solutions. AI exposure to building application leveraging OpenRouter APIs and LLM.

TECHNICAL SKILLS

Frontend:	React.js, Redux, Vite, Next.js, Angular, TypeScript, jQuery, HTML5, CSS3, JavaScript, Angular.ejs
Backend:	Node.js, Express.js, NestJS
Databases:	MongoDB, PostgreSQL
Cloud & Tools:	AWS, GitHub, Docker, CI/CD, Responsive Design

PROFESSIONAL EXPERIENCE

BhavithaTech Solutions

Bangalore, India | Nov 2021 – June 2026

Full-Stack Software Developer

▪ **e-Nursery**

Role: Fullstack Developer | **Tech Stack:** Vite, React.js, NestJS

Engineered a high-performance, modern e-commerce platform from scratch designed to streamline online plant shopping. Directed the frontend implementation using Vite and React for lightning-fast build times, while monitoring backend development in NestJS to ensure a highly scalable API layer.

▪ **SGI-Connected**

Role: Fullstack Developer | **Tech Stack:** React.js, Redux, Node.js, AWS Cloud

Developed a robust, IoT management dashboard for smart industrial and commercial lighting controls. Built the complete frontend state-management architecture using React and Redux, while collaborating closely with backend and AWS teams.

▪ **Dasubhashitam**

Role: Full-Stack Backend | **Tech Stack:** Node.js, Angular.ejs, TypeScript, FlutterFlow

Successfully deployed a dedicated Telugu audiobook application streaming high-quality literature on iOS and Android. Built the complete backend API ecosystem and managed database architecture using Node.js and MongoDB; additionally built the administrative content management system (CMS) dashboard using Angular.ejs.

▪ **DMS & WMS (Government of Karnataka HRMS Portal)**

Role: Frontend Support Engineer | **Tech Stack:** Angular, Bootstrap

Contributed to critical frontend optimization, bug resolution, and feature enhancements for the Document Management System (DMS) and Workflow Management System (WMS).

▪ **U-PRO Pen**

Role: UI Developer | **Tech Stack:** HTML5, CSS3, JavaScript

Built the flagship corporate B2B web presence for a global stationery manufacturer, crafting highly responsive product catalogs to streamline vendor onboarding and distributor engagement.

▪ **FutureTal**

Role: Frontend Developer | **Tech Stack:** React.js, Next.js

Built the user-facing interface for an online upskilling and mentorship platform connecting students with industry specialists. Implemented interactive layouts for live cohorts, structured learning paths, and real-time skill assessment modules using Next.js for enhanced performance.

3E Software Solutions

Bangalore, India | Jan 2020 – Nov 2021

Front-End Software Developer

▪ **Examhall eProctoring**

Role: Frontend Developer | **Tech Stack:** React.js, Moodle LMS Integration

Developed the user interface for a secure, automated online examination proctoring solution. Integrated the application into the Moodle LMS ecosystem, implementing real-time web streams, automated browser locking mechanisms, and live candidate verification dashboards.

▪ **KBT (Printer Services)**

Role: Frontend Developer | **Tech Stack:** React.js, Redux, Cloud Xerox APIs

Developed a high-performance fleet management and diagnostic web application for enterprise printers. Interfaced directly with cloud-based Managed Print Services and Support Assistant Xerox APIs to enable IT administrators to monitor hardware health and run remote diagnostics.

▪ **FSL**

Role: Frontend Developer | **Tech Stack:** Angular, TypeScript

Coded the UI for a secure, cloud-based file storage and asset management application designed for enterprise environments, implementing strict multi-tier file lifecycle views and compliance tracking directories.

▪ **NanoBi**

Role: Frontend Developer | **Tech Stack:** JavaScript, jQuery, GrapesJS, HTML5, CSS3

Optimized an enterprise-grade Big Data analytics and Business Intelligence platform. Enhanced heavy data visualization tools using jQuery and deeply customized GrapesJS to engineer an intuitive, low-code drag-and-drop dashboard builder for custom corporate reporting.

PERSONAL PROJECT

▪ **A.I. ChatBot**

Tech Stack: Vite, React.js, Node.js, Express, OpenRouter APIs

A.I. ChatBot is a personal assistant web app allowing users to chat seamlessly with open-source LLM. Engineered a responsive full-stack generative AI interface.

EDUCATION & CREDENTIALS

- **Bachelor of Engineering (B.E.)** | RGPV University, Bhopal (2014 – 2018)
- **MongoDB for JavaScript Developers** | MongoDB Inc. | Certification ID: `dbf87409-a852-4ee1-8ab7-e67db9c8bd20`
- **Getting Started with Node.js** | Simplilearn | Certification completion ID: `4048005`
